

CHOLLEY Phytobiotech System is specifically developed to protect the skin against:

- Oxidation (*Caused by Free Radicals*)
- Glycation (*Weakening of collagen and elastin fibers*)
- Stress (*Physical, emotional, and environmental*)
- Inflammation (*Caused by internal and external factors*)

These harmful processes, collectively referred to as *Stress Complex*, are interdependent and reinforce one another. They weaken the skin, hold back its regenerative powers, and accelerate its aging.

CHOLLEY Phytobiotech System is a life science response to the *Stress Complex* challenge that is imposed by environmental pollution and stressful modern life styles. Its objective is to protect the skin against toxins and stressors that undermine its strength and vitality. It delivers impressive results that are attested by independent scientific studies

CHOLLEY Phytobiotech Detox Revitalizer is an outstanding face cream, specifically formulated to protect against pollution and other stressors that rub the skin of strength and vitality. It is clinically tested with demonstrated efficiency in reducing oxidation caused by urban pollutants **by as much as 50%**. It can also boost skin's protein synthesis for greater support and strength **by as much as 45%**.

CHOLLEY Phytobiotech Detox Revitalizer detoxifies the skin and gives it renewed force, firmness, and energy. It also improves the keratinization process, which is essential for the proper skin healing after an injury or a trauma. Therefore, it serves as an ideal product for preparing the skin prior to a plastic surgery. It fortifies the skin and ensures its optimal hydration for rapid recovery and minimum scarring.

Performance characteristics & active ingredients

CHOLLEY Phytobiotech Detox Revitalizer performs important dermatological functions as follows:

- **Detoxifying and revitalizing action by reducing swelling, redness, and congestion**
ISOPROPYLBENZYL SALICYLATE
ISODECYL SALICYLATE
OLIGOPEPTIDE-5
- **Improves the keratinization process for a fortified skin with reduced Transepidermal Water Loss (TEWL) and Lipo-peroxidation**
OLEA EUROPAEA FRUIT UNSAPONIFIABLES
TRITICUM VULGARE GERM OIL UNSAPONIFIABLES
GLYCINE SOJA OIL UNSAPONIFIABLES
POLLEN EXTRACT
- **Strong emollient action for an elegantly soft skin**
ISODECYL CITRATE
ETHYLHEXYL PALMITATE
- **Antioxidant action**
TOCOPHEROL
PENTAERYTHRITYL TETRA-DI-T-BUTYL HYDROXYHYDROCINNAMATE
- **Deep and long-lasting hydrating action for a plumper & stronger skin**
HYDROLYZED GLYCOSAMINOGLYCANS
ETHYLHEXYLGLYCERIN
- **Nourishing, restorative, conditioning, and protective action for a beautifully soft skin**
PEG-4 PROLINE LINOLENATE
PEG-4 PROLINE LINOLEATE
- **Soothing against stress factors such as pollutants, UV radiations, and chemicals**
KRAMERIA TRIANDRA ROOT EXTRACT
EQUISETUM ARVENSE EXTRACT
MALVA SYLVESTRIS LEAF EXTRACT
SCLEROTIUM GUM

Ingredients:

AQUA, C12-20 ACID PEG-8 ESTER, ISODECYL CITRATE, PROPYLENE GLYCOL, ETHYLHEXYL PALMITATE, ACETYLATED GLYCOL STEARATE, GLYCERYL STEARATE, OLEA EUROPAEA FRUIT UNSAPONIFIABLES, DIMETHICONE, BENZYL ALCOHOL, TRITICUM VULGARE GERM OIL UNSAPONIFIABLES, GLYCINE SOJA OIL UNSAPONIFIABLES, ISOPROPYLBENZYL SALICYLATE, HYDROXYPROPYL STARCH PHOSPHATE, HYDROLYZED GLYCOSAMINOGLYCANS, KRAMERIA TRIANDRA ROOT EXTRACT, ISODECYL SALICYLATE, PEG-4 PROLINE LINOLENATE, OLIGOPEPTIDE-4, OLIGOPEPTIDE-5, GLYCERIN, ETHYLHEXYLGLYCERIN, SCLEROTIUM GUM, PARFUM, PEG-4 PROLINE LINOLEATE, POLLEN EXTRACT, TOCOPHEROL, DEHYDROACETIC ACID, EQUISETUM ARVENSE EXTRACT, PENTAERYTHRITYL TETRA-DI-T-BUTYL HYDROXYHYDROCINNAMATE, MALVA SYLVESTRIS LEAF EXTRACT, PHENOXYETHANOL, PHENETHYL ALCOHOL, BENZYL SALICYLATE, HEXYL CINNAMAL, COUMARIN, LIMONENE, EUGENOL, RICINOLETH-40, POLYSORBATE 20.

Packaging:

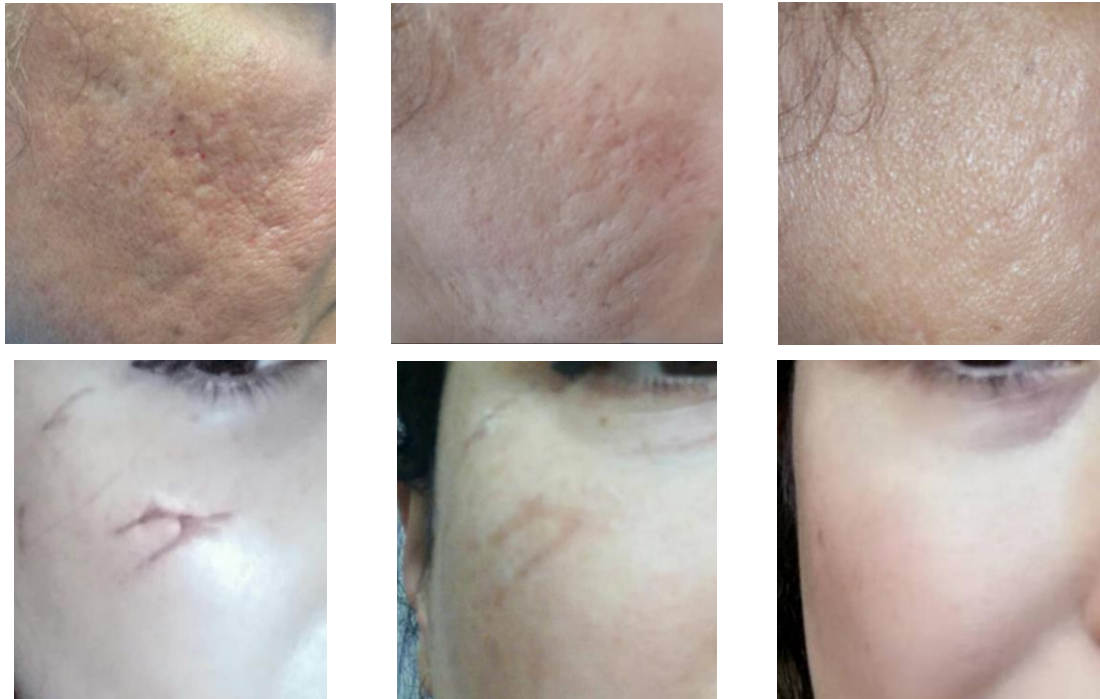

CHOLLEY Phytobiotech
Detox Revitalizer

Ref. 1011
50 ml & 150 ml

- **Improves resilience and cohesion of the skin by stimulating the renewal of collagen fibers and the dermal extracellular matrix (ECM)**

OLIGOPEPTIDE-4
OLIGOPEPTIDE-5

Before & After

15 DAYS

30 DAYS

Recommended use

CHOLLEY Phytobiotech Detox Revitalizer is perfect for all skin types and is strongly recommended in case of:

- Exposure to oxidation due to pollutants or UV radiations
- Smoking or living in urban areas that impede skin's proper oxygenation
- Lines, wrinkles, or sagging as the result of damage to skin's collagen fibers
- Stress, both physical and emotional, that cause oxidation and inflammation
- Accumulation of toxins due to inadequate exercise or an imbalanced diet.
- Dehydration due to wind, cold, air conditioning, or products that deplete skin's protective mantle

CHOLLEY Phytobiotech Detox Revitalizer is an excellent product for preparing the skin prior to a plastic surgery. By strengthening and detoxifying the skin it accelerates and improves the healing process, and minimizes scars and discoloration.

Application

For best results, in the morning and in the evening, after complete cleansing apply **CHOLLEY Phytobiotech Detox Revitalizer** to face, neck, and décolleté. Use a light massage to absorb the product. For UV protection during the day, follow the application of the product with **CHOLLEY Alpine Solar Defense - SPF 50**.

For enhanced firming or brightening action, combine with **CHOLLEY C Factor**, which is rich in vitamin C. It is also very beneficial in case of acne rosacea. Periodic use of high-quality exfoliating product such **CHOLLEY Phyto-Exfoliant Suractivée** deliver very satisfying results.

In case of a plastic surgery, start using **CHOLLEY Phytobiotech Detox Revitalizer** as a day and night cream at least 4 weeks prior to the procedure. Once the wounds are completely closed, start using **CHOLLEY Phytobiotech Skin Repair Complex** to optimize the healing process. Use of **CHOLLEY Alpine Solar Defense - SPF 50** for sun protection is essential to prevent dark spots and skin discoloration.

IMPORTANT TO KNOW

Oligopeptide-4 & Oligopeptide-5

Oligopeptide-4 is a precursor of collagen with a low molecular weight, which facilitates its penetration in to the skin. It allows renewal of collagen fibers and slows their aging. It is nourishing and gives greater strength, elasticity and hydration to the skin. *Oligopeptide-4* is used in medicine to help repair the skin after burns and injuries, and to prepare the skin prior to plastic surgeries for improved recovery.

Oligopeptide-5 is a precursor of fibronectin with a low molecular weight, which facilitates its penetration in to the skin. Fibronectin is a structural protein that bestows cohesion, firmness, elasticity, and hydration to the skin. It plays an important role in the process of wound healing, and reduction of the recovery time. It has demonstrated efficacy as a detoxifying and revitalizing agent. For this reason, it is used in firming, anti-aging, and anti-stretch marks treatments.
