

CELLIPEX Masque is a precious clay mask for professional anti-cellulite treatments. It is unrivaled in treatment of stiff and fibrous forms of cellulite to restore tone and compaction to the tissues. The lipolytic action of the mask softens and diminishes cellulite nodules, giving the skin a firm and consistent texture. Its rich reserve of phyto-extracts has a diuretic effect that helps reduce water retention. Thanks to a copious supply of minerals, **CELLIPEX Masque** generates a profound keratolytic (purifying & peeling) action that leaves the skin fresh, smooth, and silky.

Performance characteristics & active ingredients

CELLIPEX Masque performs important dermatological functions as follows:

- **Keratolytic action to soften and harmonize the skin, and to facilitate efficient penetration of the active ingredients**

BENTONITE
KAOLIN
ORYZA SATIVA

- **Lipolytic action to soften and shrink cellulite nodules**

SOLANUM MELONGENA (Eggplant extract)

- **Diuretic action to reduce accumulations of water and toxins**

HEDERA HELIX (Ivy extract)
HUMULUS LUPULUS (Hops extract)
AGROPYRON REPENS (Couch grass extract)
BETULA ALBA (Birch extract)
AESCULUS HIPPOCASTANUM (Extract of horse-cestnut)

- **Improves turgidity and elasticity of tissues for a smoother skin and a less visible "Orange-Peel" effect**

HAMAMELIS VIRGINIANA (Witch-hazel extract)
AESCULUS HIPPOCASTANUM (Extract of horse-cestnut)

- **Reinforces the connective tissue and protects the integrity of cell membranes**

- **Soothing and decongestant action to relieve the discomfort associated with subcutaneous cellulite nodules**

CHAMOMILLA RECUTITA
SALICYLIC ACID
MENTHOL

Recommended use

CELLIPEX Masque is an ideal product for the treatment of all forms and stages of cellulites. It is an exclusively professional product and produces impressive results when used in an intensive course of cabin treatments. To be used the product it has to be mixed with **CELLIPEX Lotion**.

The application of **CELLIPEX Masque** by itself is a very effective anti-cellulite treatment, however, to amplify the results it can be followed by an anti-cellulite massage with **CELLIPEX Emulsion Spécifique pour la Silhouette**.

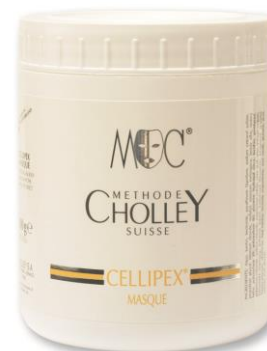

For detailed information on **CHOLLEY Professional Anti-Cellulite & Slimming Treatments**, please consult the corresponding **Technical Notes**.
