

Dark under-eye circles are a common problem for many people of all ages. The skin of the lower eyelids is thin and it covers a bony structure without the support of a substantial layer of fat or muscle tissue. The purple color is in large part due to tiny venous blood vessels and hereditary factors. The puffiness that often accompanies and accentuates the problem stems from a variety of factors including: stress, lack of sleep, water retention, or health-related factors. As the skin gets older and progressively thinner, due to the break-down of collagen and elastin fibers, the dark under-eye circles become ever more evident.

BIOREGENE Crème Anti-Cernes has been explicitly formulated to reduce dark circles and puffiness by reinforcing the skin and eliminating the congestion caused by excess fluids. It is also rich in emollients, hydrating factors, and antioxidants to help keep the skin firm and free from spreading wrinkles.

Performance characteristics & active ingredients

BIOREGENE Crème Anti-Cernes performs important dermatological functions as follows:

- **Reinforcing and anti-oxidant action to diminish dark circles and to reduce wrinkles**

HYDROXYPROPYL CYCLODEXTRIN
ARBUTIN
OLIGOPEPTIDE-5
RETINYL PALMITATE (Vitamin A)
CALCIUM PANTOTHENATE (Vitamin B5)
TOCOPHEROL (Vitamin E)
ASCORBYL PALMITATE (Vitamin C)
HYDROLYZED GLYCOSAMINOGLYCANS

- **Astringent and diuretic action to relieve congestion and puffiness**

ARCTOSTAPHYLOS UVA URSI EXTRACT
AESCULUS HIPPOCASTANUM SEED EXTRACT
CHAMOMILLA RECUTITA (Chamomile extract)

- **Intense hydrating and emollient action for a firmer and more resilient skin**

PPG-2 MYRISTYL ETHER PROPIONATE
HYDROGENATED C12-18 TRIGLYCERIDES
ARACHIS HYPOGAEA
MATRICARIA RECUTITA FLOWER OIL (Chamomile oil)

Recommended use

BIOREGENE Crème Anti-Cernes is to be used exclusively on the skin of the lower eyelids. The product is suitable both for men and women. It can be used either as a preventative measure to hold back formation of dark circles and puffiness, or as diminishing product to help reduce their size and visibility.

Application

In the morning and especially at night, after complete cleansing of face, delicately apply **BIOREGENE Crème Anti-Cernes** to the lower eyelids. For the maximum draining effect start with your index finger in the center of the lower eyelid. With light rolling movements of your fingertip apply a small amount of the cream going slowly from the center towards the external corner of the eye. In the same manner repeat the application going from the center towards the internal corner. Repeat the movements several times to ensure optimal penetration of the cream. In case of accidental contact with the eyes, rise well with lukewarm water.

Ingredients:

AQUA, PROPYLENE GLYCOL, STEARIC ACID, PPG-2 MYRISTYL ETHER PROPIONATE, HYDROXYPROPYL CYCLODEXTRIN, PARAFFINUM LIQUIDUM, SORBITOL, ALCOHOL, SODIUM CETEARYL SULFATE, POTASSIUM CETYL PHOSPHATE, GLYCERIN, CETYL ALCOHOL, BENZYL ALCOHOL, GLYCERYL STEARATE, CI 77891, ARBUTIN, HYDROLYZED GLYCOSAMINOGLYCANS, OLIGOPEPTIDE-5, ARCTOSTAPHYLOS UVA URSI EXTRACT, AESCULUS HIPPOCASTANUM SEED EXTRACT, TOCOPHEROL, HYDROGENATED C12-18 TRIGLYCERIDES, POLYSORBATE 85, ARACHIS HYPOGAEA OIL, DEHYDROACETIC ACID, RETINYL PALMITATE, CALCIUM PANTOTHENATE, PARFUM, ASCORBYL PALMITATE, CHAMOMILLA RECUTITA FLOWER EXTRACT, MATRICARIA RECUTITA FLOWER OIL, GERANIOL, LINALOOL, EUGENOL
