

BIOREGENE Reviving Mask is specifically formulated to revitalize dull, flaccid, and dehydrated skins. It is a deeply emollient mask that employs the intense hydrating power of Alpha - Hydroxy Acids to renew vitality, flexibility, and firmness of the skin. In addition, it imparts a brighter and more harmonious appearance to the epidermis that makes age spots and uneven dark patches less visible.

BIOREGENE Reviving Mask also helps slow the process of aging and relaxation of tissues by intensifying the regeneration process of new cells and collagen fibers. It is an outstanding product that brings back strength, elasticity, and silkiness to the skin.

Performance characteristics & active ingredients

BIOREGENE Reviving Mask performs important dermatological functions as follows:

- **Deeply emollient and hydrating action to restore skin's vitality and elasticity**
HYDROGENATED C12-18 TRIGLYCERIDES
OLEA EUROPAEA
CAPRYLIC/CAPRIC TRIGLYCERIDE
TRITICUM VULGARE
ARACHIS HYPOGAEA
GLYCERIN
CITRIC ACID
TARTARIC ACID
GLUCONIC ACID
LACTIC ACID
MALIC ACID
- **Intensifies the regeneration process of new cells and collagen fibers**
OLIGOPEPTIDE-5
GLYCINE SOJA
POLLEN EXTRACT
NIACINAMIDE
- **Skin conditioning action for a more vibrant and harmonious appearance**
ORYZA SATIVA
ZINC OXIDE
CALCIUM PANTOTHENATE
ALLANTOIN
UREA

Recommended use

BIOREGENE Reviving Mask is a splendid product for many skin types ranging from mixed to dehydrated. It is particularly well suited to the needs of limp and poorly oxygenated (asphyxiated) skins, which appear opaque and dull with a coarse grayish appearance due to the build-up of dead cell of the horny layer.

Application

BIOREGENE Reviving Mask is used in combination with:

BIOREGENE Lait

BIOREGENE Lotion or **BIOREGENE Fluide**

BIOREGENE Doux Peeling Crème

for a professional or home treatment with superior results.

Complete the treatment with a **Methode Cholley** cream according to the skin type.
