

Specifically formulated for the regular care of sensitive and dry skin, **BIOREGNE Crème Peaux Sensibles** is a product of exceptional quality. It is rich in hydrating factors and special emollients that intensely moisturize and soothe the skin. Of particular importance are phytosphingosine and ceramides that play key roles in lipid biosynthesis and modulating enzyme activities to restore the skin's lipid barrier. In addition thanks to a balanced supply of phyto extracts, amino acids, vitamins, and nutrients **BIOREGNE Crème Peaux Sensibles** helps stimulate reproduction of epidermal cells and connective tissue to make the skin splendidly soft and supple.

BIOREGNE Crème Peaux Sensibles is well suited to the needs of even the most demanding of delicate skins. For this reason, it is ideal for daily care of dehydrated and very sensitive (atopic) skins to relieve tension, irritation, and redness. **BIOREGNE Crème Peaux Sensibles** also responds effectively to the needs of aging sensitive skins
