

Sensitive skin appears thin and inelastic with a tendency towards dehydration and couperose. It is easily irritated and does not support many detergents and other active ingredients that are commonly used in cosmetic products.

BIOREGENE Masque Peaux Sensibles is an exquisite, purifying, and harmonizing mask for dehydrated and sensitive skins. It improves elasticity and hydration of the skin to slow the process of formation of wrinkles and relaxation of tissues. **BIOREGENE Masque Peaux Sensibles** is also an excellent toning and decongestant product, which energizes the skin and imparts a bright, fresh look to the epidermis.

Performance characteristics & active ingredients

BIOREGENE Masque Peaux Sensibles performs important dermatological functions as follows:

- **Purifying, harmonizing action for a bright and fresh look**

KAOLIN
ORYZA SATIVA

- **Emollient and hydrating action**

CETEARYL ALCOHOL
CAPRYLIC/CAPRIC TRIGLYCERIDE
CERA ALBA
GLYCERYL STEARATE
POTASSIUM PALMITOYL HYDROLYZED WHEAT PROTEIN
PROPYLENE GLYCOL
LACTIC ACID
