

CHOLLEY Crème Ultra Concentrée is an anti-aging cream for dry or very dry skins. As the skin matures, its capacity to hold moisture progressively declines. It requires even greater hydration and emollient support to maintain its flexibility and to retard formation of wrinkles.

CHOLLEY Crème Ultra Concentrée contains **Sodium Hyaluronate Crosspolyme (HAC)**. This especially active form of Hyaluronic Acid (HA) is very efficient in trapping water molecules. Compared to normal HA with its linear structure, HAC has a branched structure that holds more water for better skin hydration.

CHOLLEY Crème Ultra Concentrée is also rich in essential fatty acids and special micronutrients that efficiently nourish fibroblast cells. These cells are responsible for regeneration of new collagen fibers and Hyaluronic Acid to ensure, strength, flexibility, and hydration of the skin.

CHOLLEY Crème Ultra Concentrée has a rich, elegant texture. It is ideal for protection, hydration, and revitalization of dry, mature skins. It also provides an effective biological barrier to protect the skin against wind and cold.

Performance characteristics & active ingredients

CHOLLEY Crème Ultra Concentrée performs important dermatological functions as follows:

- **Intense hydrating-emollient action**
SODIUM HYALURONATE CROSSPOLYMER
GLYCINE SOJA
OLEA EUROPAEA
TRITICUM VULGARE
POLLEN EXTRACT
- **Stimulates skin regeneration & production of new collagen fibers**
OLEA EUROPAEA FRUIT UNSAPONIFIABLES
GLYCINE SOJA OIL UNSAPONIFIABLES
TRITICUM VULGARE GERM OIL UNSAPONIFIABLES
- **Provides a protective barrier against wind and cold**
C12-20 ACID PEG-8 ESTER,
ISODECYL LAURATE,
HYDROGENATED C12-18 TRIGLYCERIDES

Recommended use

CHOLLEY Crème Ultra Concentrée is an excellent anti-aging product that is perfect for dry or mature skins. It is especially beneficial to protect the skin in cold, arid environments by locking in the moisture.

Application

In the morning and at night cleanse and tone face, neck, and décolleté with **BIOREGENE Lait** and **BIOREGENE Fluide**. Follow up by applying **CHOLLEY Crème Ultra Concentrée**, with a light massage, to the entire treatment area.

Ingredients:

AQUA, C12-20 ACID PEG-8 ESTER, ISODECYL LAURATE, HYDROGENATED C12-18 TRIGLYCERIDES, PROPYLENE GLYCOL, OLEA EUROPAEA FRUIT UNSAPONIFIABLES, GLYCINE SOJA OIL UNSAPONIFIABLES, TRITICUM VULGARE GERM OIL UNSAPONIFIABLES, CETETH-5, HYDROXYETHYLCELLULOSE, BENZYL ALCOHOL, PEG-4 PROLINE LINOLENATE, LAURETH-5, STEARETH-5, C18-70 ISOPARAFFIN, PEG-4 PROLINE LINOLEATE, POLLEN EXTRACT, ETHYLHEXYL STEARATE, PARFUM, DEHYDROACETIC ACID, POLYGLYCERYL-4 DIISOSTEARATE/POLYHYDROXYSTEARATE/SEBACATE, SODIUM HYALURONATE CROSSPOLYMER, SODIUM ISOSTEARATE, CITRONELLOL, BENZYL SALICYLATE, HYDROXYCITRONELLAL, CINNAMYL ALCOHOL, LINALOOL, BENZYL BENZOATE.
