

High performance treatment for whitening the skin and making it more uniform and beautiful. It is ideal for eliminating age spots and sunburn stains. This superb, professional treatment utilizes natural lipo essentials with a proven efficacy in clearing excess melanin.

- 1 Use **CHOLLEY Professional Makeup Remover** to remove eyes and lips make-up.

- 2 Cleanse face, neck, and décolleté with **BIOREGENE Lait** (in case of oily or impure skins use **BIOCLEAN Lait**).

- 3 Remove with a lukewarm compress and pat dry gently. Tone the skin with **BIOREGENE Lotion** (in case of oily and impure skins use **BIOCLEAN Lotion**).

- 4 Apply **CHOLLEY Phyto-Exfoliant Suractivée** and with the fingertips execute a gentle but thorough peeling massage.

- 5 Apply a second layer and leave on for 5 – 8 minutes.

- 6** Remove the peeling with a lukewarm compress and pat dry gently. Extract any blackheads that may be present.

- 7** In a small bowl place **CHOLLEY Clearing Mask**. With the help of two **CHOLLEY** brushes apply the mask evenly on the entire treatment area.

- 8** Wait one minute and apply a second layer of the mask to form a thick coating.

*Optional – To enhance the whitening action you can apply **CHOLLEY Plaster Mask** on top of **CHOLLEY Clearing Mask**.*

- 9** Leave the mask on for 15 – 20 minutes. Remove the mask with a lukewarm compress and pat dry.

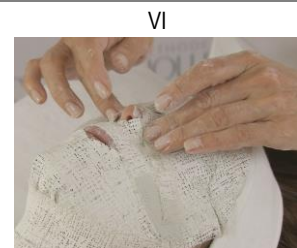

- 10** Complete the treatment with the application of **CHOLLEY Clearing Gel-Cream SPF 30** on the entire treatment area.

Application of CHOLLEY Plaster Mask

- I. Cover the eyes with two cotton disks soaked with **BIOREGENE Lotion**. Apply the main plaster sheet on the face, leaving mouth and nostrils open.
- II. Moisten your hands with lukewarm water and shape the bandage to the contour of the face.
- III. Once the main sheet is securely in place, moisten and apply the chin strip.

- IV. Next, moisten and apply the neck strip. Make sure it is well attached to the sides of the neck.
- V. Moisten and apply the upper-lip strip.
- VI. Moisten and apply the nose strip.

- VII. Apply the small diamond-shaped forehead piece.
- VIII. Moisten two face brushes well and fully develop the plaster on the entire bandage.
- IX. Leave the bandage on for 10 - 15 minutes until it becomes hard.

- X. Begin removing the bandage by gently rolling it down from the chin towards the forehead.
- XI. For easier removal, turn on the vaporizer.
- XII. Wriggle the bandage gently to the left and to the right as you progress.

- XIII. Rinse any residue of the mask and of the bandage with a lukewarm compress.
- XIV. Thoroughly remove any trace of the mask.
- XV. Dust off any remaining bits of plaster.

Estimated time:

50 minutes (60 minutes with the application of **CHOLLEY Plaster Mask**)

Frequency:

Once or twice a week
