

BIOREGENE Hyaluronic Program is an intense hydration and regeneration treatment for professional use that drastically improves the appearance of the skin. It is ideal for any skin that shows signs of dryness or aging. **BIOREGENE Hyaluronic Program** is especially beneficial in diminishing the erythema and oxidation damage caused by solar exposure. It reduces redness quickly and reinforces the connective tissue to prevent the development of lines and wrinkles.

- 1 Use **CHOLLEY Professional Makeup Remover** to remove eyes and lips make-up.

Cleanse face, neck, and décolleté with **BIOREGENE Lait**.

- 2 Rinse the skin with a lukewarm compress and pat dry with **CHOLLEY Microfiber Gloves**.

Tone with **BIOREGENE Fluide**.

- 3 In a small ceramic bowl place **BIOREGENE Doux Peeling Crème**. Apply uniformly a layer of the cream on face, neck, and décolleté.

- 4 Execute an exfoliating massage with the fingertips for 2 - 3 minutes. Apply a second layer of **BIOREGENE Doux Peeling Crème** and leave on for 5 - 8 minutes.

- 5 Remove the peeling with a lukewarm compress and gently pat dry. Extract any blackheads that may be present.

- 6** Tone the skin with **BIOREGENE Hyaluronic Solution** and leave it completely moist in preparation for the next step.

- 7** Apply **BIOREGENE Hyaluronic Mask** on face and neck. Moisten the mask with **BIOREGENE Hyaluronic Solution** and let it rest for 20 – 25 minutes.

- 8** Remove the **BIOREGENE Hyaluronic Mask** and pat dry the skin. Apply **BIOREGENE “S” Ampoules** on the face with the gentle pressure of the fingertips. Massage gently until it is completely absorbed.
- Massage face, neck, and décolleté with **BIOVISOL Complexe Huileux**.

- 9** Remove any traces of oil from the skin with the help of **CHOLLEY Microfiber Gloves**. Complete the treatment with the application of **CHOLLEY Edelweiss Cream (SPF 20)** on face, neck, and décolleté.

CHOLLEY Edelweiss Cream (SPF 20)

PHYTOBIOTECH Instant Lifter

Application of BIOREGENE Hyaluronic Mask

- I. With a clean pair of scissors carefully cut open the protective pouch and remove **BIOREGENE Hyaluronic Mask**.
- II. Carefully separate the neck and nose segments from the main section and place them on a clean dry surface.
- III. Thoroughly moisten the face with **BIOREGENE Hyaluronic Solution**.

- IV. Place the main section on the face and press gently to assume the facial contour. Use a brush to fix the mask with **BIOREGENE Hyaluronic Solution**.
- V. Apply the nose segment and press gently to fix its position.
- VI. Saturate the mask with **BIOREGENE Hyaluronic Solution**. Start from the nose ridge and move gradually towards the sides of the face.

- VII. Apply and fix the two neck segments with **BIOREGENE Hyaluronic Solution**.
- VIII. The mask is sufficiently moistened when there are no air bubbles and **BIOREGENE Hyaluronic Mask** appears like a second skin.
- IX. Cover the eyes with two cotton pads moistened with **BIOREGENE Hyaluronic Solution** to ensure a perfect eye contour contact.

- X. For optimal delivery of the active ingredients, let **BIOREGENE Hyaluronic Mask** rest for 20 – 25 minutes before removing it.
- XI. Slowly roll up the mask from the neck to the forehead.
- XII. After removing the mask let the skin breathe for 3 minutes before applying any other products on the face.
