

CHOLLEY Anti-Glycation Program presents a breakthrough in anti-aging cosmetic treatments. It is specifically formulated to address the problem of *glycation* by:

1. Protecting the skin proteins by inhibiting the action of sugars and formation of A.G.E.s
2. Repairing glycated proteins allowing them to return to their original states
3. De- yellowing for a brighter complexion through glycation inhibition/reversal

This exclusive advance technology action helps reverse course of the aging process through:

1. Preventing and reversing the process of glycation-induced aging
2. Restoring firmness and suppleness to the skin
3. Reducing yellowing and dark spots for a brighter and more radiant skin

- 1 Use **CHOLLEY Professional Makeup Remover** to remove eyes and lips make-up.

- 2 Cleanse face, neck, and décolleté with:
BIOREGENE Lait (dry, dehydrated, or couperose skins)
BIOCLEAN Lait (mixed, oily, or impure skins)
Rinse with a lukewarm compress and gently pat dry the skin

- 3 Apply **BIOCLEAN AHA Peeling Gel** on face, neck, and décolleté. Let it rest for 5 to 10 minutes. This helps deep exfoliation of the skin and gives a radiant look to the epidermis.

BIOCLEAN AHA Peeling Gel homogenizes the skin, eliminates the dead layers of keratin, and gets rid of the gray-yellow tinge of the epidermis.

- 4 Neutralize the peeling gel with **BIOCLEAN Buffer Solution**. Rinse the skin with a lukewarm compress and pat dry with **CHOLLEY Microfiber Gloves**.
*In case of couperose, skip steps 3 & 4 and see the **Special Considerations** at the bottom of the next page.*

- 5 Apply a layer of **PHYTOBIOTECH Satin Balm** on face, neck, and décolleté and leave on for 15 minutes.

Remove the mask with a lukewarm compress and pat dry with **CHOLLEY Microfiber Gloves**.

- 6** Apply **CHOLLEY C Factor** to fortify the skin and to accelerate the regeneration of collagen and elastin support fibers of the derma. It is extremely rich in vitamin C.
Massage gently until the product is fully absorbed.

- 7** To reduce instantly wrinkles apply few drops of **PHYTOBIOTECH Instant Lifter** on face, neck, and décolleté.

- 8** Complete the treatment with the application of **PHYTOBIOTECH Satin ACE Cream**.

Estimated time:
60 minutes

Maintenance products for home use:

PHYTOBIOTECH Satin Balm - Hydrating & Lifting Face Balm

Frequency: **PHYTOBIOTECH Satin ACE Cream** - Protective & Brightening Face Cream

Once or twice a month **PHYTOBIOTECH Instant Lifter** - Instant Lifting Gel

Special Considerations

- I** In case of sensitive skin or couperose avoid using **BIOCLEAR AHA Peeling Gel**. Instead, apply a milder peeling product such as:

BIOREGENE Doux Peeling Crème (dehydrated, mature, or couperose skins)

BIOCLEAR G3 Mask (impure or oily skins)

CHOLLEY Phyto-Exfoliant Suractivée (mixed and dry skins)

Apply the product with two brushes and with fingertips execute a thorough exfoliating massage.

Apply a second layer and leave on for 5 - 8 minutes.

Remove the mask with a lukewarm compress and pat dry with **CHOLLEY Microfiber Gloves**. Extract any blackheads that may be present.

- II** In case of multiple monthly treatments, do not use **BIOCLEAR AHA Peeling Gel** more than once a month. It can cause skin sensitization. Instead, after the first treatment use **BIOCLEAR AHA Professional Mask** on the subsequent treatments. For best results leave at least 3 weeks between the consecutive applications of **BIOCLEAR AHA Peeling Gel**.
