

CHOLLEY Pre-Surgery Skin Program is a professional treatment for preparing the skin prior to a plastic surgery. It fortifies the skin and ensures its optimal hydration for rapid recovery and minimum scarring. This Program also improves the keratinization process, which is essential for the proper skin healing after an injury or a trauma

1

Use **CHOLLEY Professional Makeup Remover** to remove eyes and lips make-up.

2

Cleanse face, neck, and décolleté with:

BIOREGENE Lait (dry, dehydrated, or couperose skins)

BIOCLEAN Lait (mixed, oily, or impure skins)

Rinse with a lukewarm compress and gently pat dry the skin.

3

Apply **CHOLLEY Phyto- Exfoliant Suractivée** and with the fingertips execute a gentle but thorough peeling massage on face, neck, and décolleté.

Pay special attention to the neck and décolleté if the skin is weak or sagging.

4

Apply a second layer of **CHOLLEY Phyto-Exfoliant Suractivée** and leave on for 5 - 8 minutes.

5

Remove the mask with a lukewarm compress using a microfiber glove.

6

Apply a rich layer of **BIOCLEAN Professional AHA Mask** on face, neck, and décolleté. Extend the mask fully on the entire treated area and let it rest for 5-10 minutes.

7

Massage the mask with fingertips to remove excess Keratin and to make the skin beautifully smooth and uniform.

8

Rinse with a lukewarm compress and gently pat dry.

Tone the skin with **BIOREGENE Fluide**

- 9** Apply **CHOLLEY C Factor** to fortify the skin and to accelerate the regeneration of collagen and elastin support fibers of the derma. It is extremely rich in vitamin C.

Massage gently until the product is fully absorbed

- 10** Massage face, neck, and décolleté with **BIOVISOL Complexe Huileux**.

- 11** Complete the treatment with the application of **PHYTOBIOTECH Detox Revitalizer**.

Estimated time:

50 minutes

Frequency:

Up to twice a month
